The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 30, 33, 34, 37, 38, 43, 45 and 46 are rejected under 35 U.S.C. 102(b) as being anticipated by Olsson (U. S. Patent 5,458,228).

Olsson shows a helical support having at least one bearing element 11 for supporting a belt 1, an endless section 19 for support the bearing element and the one bearing element is a roller bearing element comprising a plurality of rollers 21.

Re claim 33, the rollers receive vertical forces.

Re claim 34, the rollers will also receive radial forces.

Re claim 37, the rollers are alternately arranged.

Re claim 38, the rollers are spaced.

Re claim 43, the rollers are movable.

Re claims 45 and 46, Figure 7 shows a drive assembly.

Claims 31, 32, 35, 36, 39-42, 44 and 47-51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 52-59 are allowed.

Applicant's arguments filed 9/17/2007 have been fully considered but they are not persuasive. The term "roller bearing element" does not have to be read to be so

detailed as to encompass a certain shape for the bearing element. Olsson' bearing elements certainly roll.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James R. Bidwell whose telephone number is (571)272-6910.
